# Winter production lick for growth

Raw materials	Growth
Maize-meal	300
Oilcake	400
Feed Grade Urea	50
Kimtrafos 12 Grandé / PhosSure 12	75
Kalori 3000	25
Feed Grade Sulphur	3
Salt	200
<b>Total</b>	<b>1053</b>
Composition	Composition
Crude protein (%)	30.6
From NPN (%)	47.4
ME (MJ/kg)	7.9
Ca (%)	1.9
P (%)	1.3
S (%)	0.3
<b>Intake, g/ day (cattle)</b>	<b>1000 - 2000</b>
<b>Intake, g/ day (sheep &amp; goats)</b>	<b>100 - 150</b>

Supplemented under the following situations:

- Where rapid weight gain on summer grazing is required.

Feed to cattle or sheep/goats that have free access to grazing and/or roughage.

**Regulate Intakes.** Depending on intakes, salt inclusion may be adjusted accordingly.

**WARNING:** These licks contain urea. Hungry animals must not have access to urea containing licks. Gradually introduce them to the lick until it is ensured that the recommended intake will not be exceeded.
